

Corrugated Packaging - Containerboard Mill

**Reference: Recommendation of J.S.G. Corporation
Emergency Parking Lot**

Dear Sir:

I have had the pleasure of working with J.S.G. Corporation and recommend them. Their work exceeded my expectations. When we said we had an emergency Gary Massie and his staff responded that day. We needed a plan to add 144 gravel parking spaces with perimeter security.

Gary Massie and Michael Mullins responded with a plan for our review the next day. The proposal followed immediately and we had approval and construction completed within three (3) weeks.

Dan Adams supervised and completed the work. During construction J.S.G. Corporation made improvements to their design to enhance vehicle circulation and improve perimeter security. These were done at no additional charge and improved the function of our parking lot.

I recommend J.S.G. Corporation and will use them again.

Sincerely,

A handwritten signature in black ink that reads 'G. Stephen Boynton'.
